14.   Public health experts say the coronavirus is much more dangerous than the seasonal flu. First, the death rate for people who get the coronavirus is 10 to 20 times higher than the seasonal flu--especially among the elderly and other medically vulnerable people. Second, coronavirus spreads much more quickly through the population, in part because there is no vaccine for the coronavirus and there will not be one for more than a year.

Were you already familiar with this information about the dangers of the coronavirus, or were you not familiar with this information before? **

I was already familiar with this information	86	[232]
I was not familiar with this information before	14	

** Asked of one-half the respondents (FORM B).

15.   As you probably know, President Trump has pushed for the full repeal of the Affordable Care Act (Obamacare), and is currently supporting a lawsuit in the U.S. Supreme Court to completely overturn the Affordable Care Act.

If President Trump got his way and the Affordable Care Act was completely repealed, do you think this would have a positive effect, a negative effect, or have no effect either way on people's ability to get the healthcare they need to deal with the spread of the coronavirus?

Positive effect	24	[233]
Negative effect	50	
No effect	26	

16.   Below are some statements about Donald Trump's handling of the coronavirus. For each one, please indicate whether it gives you concerns about Donald Trump's handling of the coronavirus in the United States.

THIS TABLE HAS BEEN RANKED BY THE PERCENTAGE WHO SAY VERY MAJOR CONCERNS

	Total **Major Concerns**	Very Major Concerns	Fairly Major Concerns	Some Concerns	Only Minor Concerns	No Real Concerns At All	
(ACA ATTACKS) Donald Trump is in court trying to take health insurance away from 20 million Americans, which would make it harder for them to get healthcare if they get sick from the coronavirus and increase the chance of transmitting the disease to others[+]..............	**62**	50	12	13	7	18	**[239]**
(GLOBAL PANDEMIC TEAM) In 2018, Donald Trump fired and never replaced the entire pandemic response team on the National Security Council, including the Homeland Security advisor whose job was to coordinate responses to global outbreaks of disease[+] ..	**64**	49	15	13	9	14	**[238]**
(PREPARATION) When the coronavirus emerged in China, Donald Trump resisted recommendations to plan and prepare for the virus coming to the United States. He failed to secure enough testing to head off a coronavirus outbreak or enough masks and protective clothing in hospitals to deal with an outbreak.	**62**	49	13	15	9	14	**[234]**
(FALSE STATEMENTS) Donald Trump has repeatedly made false and misleading statements about the coronavirus, including that a vaccine would be available within a few months when public health officials say it wouldn't be ready for at least a year or a year and a half. He also said that anyone can get a test, when in reality, hardly anyone can get one, even if they show symptoms.	**60**	49	11	16	8	16	**[235]**
(CDC CUTS) In 2018, the Trump administration cut 80% of the funding for the Centers for Disease Control (the CDC) to fight global pandemics and build emergency response operations for the outbreak of diseases. Just last month, the Trump administration proposed cutting $3 billion more from global health programs, and Trump officials continue to defend this cut. [+]	**65**	48	17	14	7	14	**[240]**
(UNDERMINING EXPERTS) Donald Trump has ignored and contradicted the recommendations of health experts, putting people's lives at risk. For example, Trump personally overruled the recommendation of the CDC, which wanted to advise seniors and physically fragile Americans not to fly, and for several weeks Trump has rejected the requests of health officials to treat the spread of the coronavirus as a national emergency– waiting until the virus already spread widely before taking action..............	**63**	48	15	14	9	14	**[237]**

[+]Respondents were randomly asked four of these items

Q.16 (cont'd)	Total Major Concerns	Very Major Concerns	Fairly Major Concerns	Some Concerns	Only Minor Concerns	No Real Concerns At All	
(DOWNPLAYING) In press conferences and tweets, Donald Trump has downplayed the danger of the coronavirus, suggesting that Americans shouldn't treat it any differently than they do the seasonal flu and that people with the coronavirus can go to work. He dismissed the World Health Organization's coronavirus death rate estimate, substituting a much lower figure based on his "hunch."	**60**	47	13	17	10	13	**[236]**
(HOAX) Instead of trying to unite the nation to deal with the coronavirus, Trump has made it a partisan, divisive issue. When Democrats raised concerns about the coronavirus, he called it a hoax, and he continues to say that Democrats are just raising concerns about the coronavirus to damage him[+]...	**58**	47	11	14	10	18	**[242]**
(FAIL TO ACT/TESTING) Even now, the Trump administration is not taking the urgent action needed to mobilize a response to the coronavirus from government and the private sector. Of the tens of millions of coronavirus tests the country will need, only a small fraction are currently available[+].......................................	**59**	45	14	15	11	15	**[244]**
(CORPORATIONS) Donald Trump has frequently spoken about the economic impact of the coronavirus on big corporations and even called for government bailouts, but has not paid attention to the problems of workers who are losing wages and don't have access to paid sick leave[+]...	**61**	44	17	17	7	15	**[245]**
(ALLIES TESTING) While people who actually have symptoms are being denied testing, Donald Trump's political allies in Congress were able to get tested, even though they weren't showing any symptoms[+]...	**62**	43	19	14	9	15	**[243]**
(CRUISE SHIP) While coronavirus infections began spreading on a cruise ship stranded off the coast of California, Donald Trump said he wanted to leave the thousands of passengers on board in order to keep the number of cases of coronavirus in the United States as low as possible, even though this would have put many people's lives at risk[+].	**52**	35	17	17	11	20	**[241]**

	Total	Very Strongly Agree			Do Not Agree At All		
	8-10	**10**	**8-9**	**6-7**	**5**	**0-4**	
It is irresponsible and dangerous for Donald Trump to go against his medical experts and consistently downplay the serious impact the coronavirus can have on the elderly and other vulnerable Americans. His priority should be keeping people safe, not looking out for his own political interests.	**59**	39	20	10	7	24	[260-261]
It is dangerous to have a president who rejects science and the advice of leading scientists--whether it is dealing with climate change or the rapid spread of an infectious disease. ...	**56**	39	17	11	7	26	[262-263]
In a public health emergency like we are experiencing now, Americans need to have confidence that our leaders are telling us the truth. But Donald Trump keeps saying things that are not true and contradicting what his own medical experts say about the coronavirus.	**55**	36	19	11	7	27	[258-259]
At a time like this, a president should be working to unite the country, but instead Donald Trump continues with negative tweets and insults against his opponents that further divide Americans...	**53**	35	18	11	8	28	[254-255]
The government's lack of preparation for the coronavirus and the failure to make sure there is adequate testing available shows that Donald Trump lacks the basic competence we need in a president to deal with a crisis..................................	**51**	34	17	10	6	33	[264-265]
Donald Trump's impulsive and inconsistent reactions to the coronavirus are responsible for creating chaos and confusion about how best to deal with the spread of the virus.................	**51**	30	21	12	6	31	[250-251]
The spread of the coronavirus demonstrates how misguided Donald Trump has been in trying to repeal the Affordable Care Act, take health coverage away from tens of millions of Americans, and weaken protections for people with preexisting conditions.	**49**	32	17	10	7	34	[252-253]
Donald Trump's failure to provide strong, consistent leadership in the face of the coronavirus has caused record drops in the stock market and is pushing the country into an economic recession..	**49**	30	19	12	7	32	[266-267]
Donald Trump has done a really great job dealing with the coronavirus, but he is not spending enough time communicating his success to the public.	**20**	6	14	14	11	55	[256-257]
