Subject: Widespread Support in Rep. Stephanie Murphy's District (FL-07) for Medicare Negotiations to Lower Drug Prices, Other Key Health Provisions, and the Overall Build Back Better Plan

Date: October 19, 2021

A new Public Policy Polling survey finds strong bipartisan support in Florida's 7th Congressional District for the key reforms to health care that are part of the Build Back Better Plan that will lower drug costs and insurance premiums, expand Medicare benefits, and increase coverage.

Overwhelming majorities of voters across party lines support giving Medicare the power to negotiate lower prescription drug prices.

- 80% of FL-07 voters say they support giving Medicare the power to lower prescription drug prices for all Americans, with 65% saying they strongly support it. Just 11% say they oppose it.
 - This includes support from a majority across party lines, including 94% of Democrats, 71% of independents, and 64% of Republicans.
 - 87% of voters say they think the price of prescription drugs is too high, while just 8% think they are “about right.”
- 87% of FL-07 voters support making sure that Americans do not pay more for the same prescription drugs than what people pay in other countries, while just 6% oppose it. Those in support include 84% of independents and 77% of Republicans.
- Voters reject the drug company argument that giving Medicare the power to negotiate will undermine innovation. 75% of voters agree more that Medicare should be allowed to negotiate with drug companies to make drugs and medication

more affordable to patients, while just 10% agree more with the drug company argument that by letting Medicare dictate prescription drug prices, drug companies' ability to innovate and develop new drugs will be undercut.

Voters are also supportive of the other benefits the Build Back Better plan would offer for health insurance, Medicare and Medicaid:

- 65% of FL-07 voters support a plan in Congress to lower the health insurance costs for people who buy insurance on their own by expanding tax credits and subsidies. Just 12% overall are opposed. Like many of the previous initiatives, this attracts bipartisan support, including 66% of independents and 58% of Republicans.
- 85% of voters support using savings from lower drug prices to provide health care benefits for hearing, dental, and vision to seniors on Medicare, and lower insurance premiums for millions more. Supporters include 79% of independents and 75% of Republicans.
- 69% support giving low and moderate income Americans, including seniors, children, and people who do not get insurance at work, the opportunity to get health insurance at little or no cost if their state does not offer coverage under Medicaid. Just 15% are opposed. Supporters include a majority of independents (61%) and plurality of Republicans (47%), with just 27% of Republicans opposed.

A majority (65%) of FL-07 voters also say they support the overall Build Back Better plan, which would provide paid family and medical leave, expand Medicare coverage for seniors including dental, vision, and hearing coverage, and lower health care costs by allowing Medicare to negotiate lower drug prices. Just 24% are opposed.

Public Policy Polling surveyed 516 voters in Florida's 7th Congressional District on behalf of Protect Our Care from October 15-16, 2021. The margin of error is +/- 4.3%. 60% of interviews for the survey were conducted by text message and 40% by telephone.
