

Republicans Follow Through on Their Plan to Hike Costs and Strip Nevadans of Their Health Care

Across the country, health care is in crisis, including in Nevada. Since taking power, Donald Trump and Congressional Republicans have launched an all-out assault on our health care system. From slashing Medicaid to driving rural hospitals off a cliff to ending health care tax credits, they have created a disaster for working families and only helped billionaires get richer. Now Nevadans who buy insurance on their own will see their premium costs skyrocket. Beginning in 2026, Republicans have made sure that premiums in Nevada will [increase](#) by an average of 132 percent more every single year. This will exacerbate the uninsured rate and raise costs for hard-working Nevadans at a time when too many are struggling to make ends meet. It's time for Republicans to fix the mess they created. Every day they stall, more Nevadans are forced to choose between keeping a roof over their head, food on the table, or life-saving coverage. The choice is clear: side with billionaires and big corporations and let the crisis get worse, or finally stand with hard-working Nevadans.

By the Numbers

There are 110,687 Nevadans on the state ACA [marketplace](#) who will be forced to pay \$762 more each year on average for their health insurance.

Around 110,000 Nevadans will [lose their health care](#) coverage entirely thanks to Republican premium increases and the Big, Ugly bill.

A 45-year-old in Nevada making \$62,000 will see their average annual premium costs [rise by](#) \$1,299 to hit \$6,739 annually.

A 60-year-old couple in Nevada making \$82,000 will see their average annual premium costs rise by \$18,106 to hit \$25,331 annually.

A family of four in Nevada making \$126,000 will see their average annual premium costs rise by \$8,018 to hit \$19,068 annually.

Hospitals and clinics across Nevada are already struggling to stay open after Republicans passed the largest health care cuts in history. Now, thanks to Republicans gutting the premium tax credits and hiking Nevadans' premiums, providers in Nevada [will lose](#) an additional \$110 million in funding.
