

PROTECT
OUR CARE

New Report

**Over Five Million
Americans Lost
Coverage In the Year
Following Trump-
GOP Health Care Cuts**

One year after Donald Trump and Republicans in Congress made the largest health care cuts in history to bankroll tax breaks for billionaires and big corporations, five million Americans and counting have lost their health care coverage — and it's only going to get worse. By slashing Medicaid, Republicans put lifesaving care at risk for seniors in nursing homes and sick kids. They also voted to take away tax credits from working families, causing health insurance premiums to more than double. In total, 15 million people are going to lose their health care because Republicans put billionaires first. Throughout the month of June, Protect Our Care is [blasting](#) Republicans for their health care crisis ahead of the one-year anniversary of their big, ugly bill on July 4th.

Over Five Million Americans Lost Coverage In the Year Following Trump-GOP Health Care Cuts

- **Donald Trump and Republicans in Congress have made the largest health care cuts to Medicaid in history.** Republicans gutted around \$1 trillion from Medicaid alone last July. In June 2025, 80.8 million Americans were enrolled in Medicaid and CHIP. According to the most recent enrollment numbers released by the Centers for Medicare and Medicaid Services and state agencies, 76.9 million Americans are now enrolled in Medicaid and CHIP — **an estimated coverage loss of over 3.8 million Medicaid/CHIP enrollees.**
- **Families across the country are being crushed by GOP-driven sticker shock.** Last November, [premiums more than doubled](#) for nearly [over 20 million families](#) because Trump and Republicans took away the tax credits that helped millions afford coverage, plunging the country into a [health care affordability crisis](#). During the 2025 Open Enrollment period, 24.3 million Americans bought affordable health insurance on their own through the ACA. During this year's Open Enrollment period, just 23.1 million Americans signed up — **an estimated coverage loss of nearly 1.2 million.**
- **This is just the beginning of the coverage loss. Millions more will lose coverage once deeper cuts go into effect.** The coverage loss we're seeing now likely reflects skyrocketing premiums from [GOP elimination of enhanced premium tax credits](#), the red tape created by the [overturn of multiple rules](#) that were designed to expand access to Medicaid and mitigate coverage loss from the unwinding of pandemic-era policies, and [other eligibility restrictions](#) that have already taken effect. Next year, coverage losses will accumulate even more from [work requirements, redeterminations, downstream effects of other cuts](#).

TABLE 1: Estimated Coverage Loss Since the Passage of H.R. 1

	June 2025 Enrollment	Most Recent Enrollment	Estimated Coverage Loss
Medicaid/CHIP	80,820,577	76,993,048	3,827,529
Affordable Care Act	24,319,713	23,130,860	1,188,853
Total	105,140,290	100,123,908	5,016,382
